

FREE Multiplication Practice Worksheet

Dear Parents:

These math worksheets are ready for brief math skills practice sessions. Not too long, and focused on a single skill, these pages will provide your child with lots of chances to learn how to multiply and memorize the times table, which are key arithmetic skills your child will need in all future math courses.

What you should do is have your child work through the www.Sensible-Math-Education.com worksheets in order, completing one at each practice session. Your child should do, and re-do, each sheet until it's automatic. That is, until he or she can work through it as fast as he can write.

Section 1: Multiplication: x1, x2, x3
