

FREE Skip Counting Practice Worksheet

Dear Parents:

These math worksheets are ready for brief math skills practice sessions. Not too long, and focused on a single skill, these pages will provide your child with lots of chances to learn how to skip count, which is a preparatory step for learning to multiply and divide.

What you should do is have your child work through the www.Sensible-Math-Education.com worksheets in order, completing one at each practice session. Your child should do, and re-do, each sheet until it's automatic. That is, until he can work through it as fast as he can write.
